# DISCLAIMER

Good day everyone, before we begin, I'd like to start with a quick disclaimer. The purpose of this presentation is to inform you about the opportunities presented by Fornax Blockchain technology, and how it can potentially help you earn a substantial income. However, we want to make it clear that this is not a "get rich quick" scheme. Instead, it's a "get rich for sure" scheme, provided that you are willing to invest time and effort to learn about cryptocurrency and network marketing.

We'll be discussing our new layer1 blockchain technology and the many opportunities it presents for you to earn income. We'll also provide you with all the necessary tools to help you achieve your goals. Please note that anything presented in this session is not a guarantee or promise, but rather an opportunity for you to make a positive change in your life. Before making any investment decisions, it's important that you do your own due diligence and research thoroughly. We encourage you to take calculated risks and consider your own financial situation before investing. Remember, investing always carries a level of risk, so it's important to approach it with caution and awareness. Thank you for your attention, and let's get started!

# About Fornax Coin

The world's first and only layer-1 blockchain with its own native applications (Eco-system). Fornax is not just another cryptocurrency; it's a platform that allows developers to build native apps on its blockchain, creating a thriving eco-system of decentralized applications. With Fornax, users can experience lightning-fast transactions, unbeatable security, and a vibrant community of developers and users.

Fornax (FRX) is the fork of Ethereum. Principally, FRX is designed to be organized, managed and operated through decentralized organization, with the view of being distributed, democratically controlled, and community managed.
